[illegible]

Figure 10.10 illustrates the reinforcement details for a slab. The top part shows a plan view of a rectangular slab with dimensions 2200 mm by 1300 mm. It features a grid of reinforcement bars with spacing 6@250=1500 mm. The bottom part shows a cross-section view of the slab, indicating a total thickness of 130 mm and a clear height of 1250 mm. The reinforcement details include top bars (S1, S2, S3) and bottom bars (S4, S5, S6) with specific spacing and anchorage lengths.
